REQUIRED EXPERIENCE

PROJECT COORDINATOR

MAIN RESPONSIBILITIES

We are looking for an experienced **Engineer or Technician** to lead product development and coordinate the production of our products.

This person will work directly with management on decision-making related to future solutions and product design, and will be expected to proactively propose and carry out assigned tasks.

DEVELOPMENT & INDUSTRIALIZATION

- Design of enclosures for electronic product integration using CAD software
- Production of product prototypes
- Supplier sourcing for product industrialization
- Validation of electronic solutions in collaboration with the team
- Project follow-up with external service providers
- Management of the electronic team's workload
- Preparation of customer quotations
- Responsibility for production cost control across products
- Occasional international travel for solution deployment and testing

PRODUCTION:

- Management and coordination of the production team
- Organization of workload planning
- Upskilling operators on various production tasks
- Occasional hands-on support during peak workloads (manual SMD soldering, laser engraving, storage, bonding, etc.)
- Stock monitoring
- Ensuring deadlines are met

PROFILE SOUGHT

The ideal candidate is versatile, autonomous, and has solid experience in project management, particularly in electronics, along with strong knowledge of machining technologies

- Engineering degree (Master's level) or technical degree (Bachelor's level) with experience in project management
- Minimum of 3 years' experience in a similar role
- Proficiency in SOLIDWORKS or strong foundational knowledge
- Solid understanding of manufacturing processes (machining, soldering, plastics processing)
- Knowledge of SMD soldering required
- Comfortable working in an industrial environment
- Practical mindset, autonomous, and highly motivated to develop skills
- Written and spoken English required (minimum B1 level)

OUR PROPOSITION

Take advantage of our development needs to showcase your qualities in the highly attractive sector of high-level sports, which offers significant growth potential.

- | FULL-TIME CONTRACT
- | POSITION TO BE FILLED AS SOON AS POSSIBLE
- | WORKPLACE IN MAMIROLLE (25620)
- | REMUNERATION TO BE DETERMINED

Events

In addition to these activities, and with the approval of your manager, you may be required to travel to various service locations to help develop innovative solutions that meet customer demand.
