

WHO ARE WE ?

Active in the sports timing industry for more than 15 years, our company specialises in several complementary activities:

- Sale of timing equipment
- Timing services
- TV graphics services
- Development of complementary software and applications
- Design and manufacture of timing equipment

We already work at major motorsport events, including FIA WTCR, GT4 France and the Pau Grand Prix, motorcycle events such as the FIM EWC and FIM SuperEnduro, as well as world speed-record attempts involving the Peugeot EX1, Ford EcoBoost and Guy Martin in a soapbox car.

We stand out from our competitors by also offering comprehensive services for televised events.

YOUR MISSION

As part of an experienced team, you will contribute to the smooth operation of timing systems and TV graphics at numerous sporting events, mainly car and motorcycle races.

THE ROLE WILL PARTICULARLY REQUIRE:

- The ability to study sporting regulations and organise your work accordingly
- Availability and independence to carry out assignments anywhere in the world
- A good level in English
- A thorough approach to preparing your equipment and organising the event under the supervision of your manager
- A positive attitude and courtesy to maintain good relationships with clients
- The ability to adapt to our working methods following an in-house training period covering timing software, TV graphics software and other tools

PROFILE SOUGHT

YOU ARE:

- Passionate about competition and elite-level sport
- Organised and meticulous
- Interested in travelling
- Available on weekdays and weekends
- Motivated, proactive and comfortable with variable working hours
- The holder of a valid category B driving licence

OUR PROPOSITION

Join us as a timing operator and combine travel and work while enjoying unique experiences in elite-level sport.

- **Employment status to be determined: full-time contract, part-time contract or independent subcontractor**
- **Available immediately**
- **Work based in Mamirolle, France (25620), as well as at locations around the world**
- **Salary to be determined**
